# Retrieving Stored Passwords in Browsers

CHROME:

- Click your profile picture in the top right-hand corner of Chrome
- Select "key" for Passwords

- You can also enter chrome://settings/passwords into a new tab and hit enter
- Saved passwords will be listed

INTERNET EXPLORER:

- In Internet Explorer, go to Settings>Internet Options>Content tab
- Under AutoComplete click Settings>Manage Passwords
- This will open Windows Credential Manager where the passwords will be displayed

MICROSOFT EDGE:

- Select ellipsis in upper right hand corner
- Go to Settings

Retrieving Stored Passwords in Browsers

- Select Passwords to view saved passwords

FIREFOX:

- In the upper right-hand corner select menu
- Select Logins and Passwords; saved passwords will appear
